Dear John:

By now Dick Crompton should have gotten in touch with you by 'phone on the keynote speaker problem. I think he is in a better position to coordinate with you on that.

I hope that your invitation to Professor Doob is accepted. We will be able to work him in without difficulty. Let me know on this matter. I am delighted to hear that WYBC-FM's Program Director, Michael M. Skol, will be able to run the "Production Techniques" session in the 'YBC studios.

As for the other sessions, things are yet in a state of flux. I think we have commitments from about half the session leaders invited. I'll keep you posted on this. If you have any further ideas, let me know.

Sincerely yours,

*Bill Malone*
